MARCH 13TH TO APRIL 7TH, 2024

THE WAY OF THE SAMURAI AT THE MOST BEAUTIFUL TIME OF THE YEAR

SEOUL TO TOKYO

東京都

The first ever classic car tour taking in South Korea and Japan will run at the most beautiful time of the year when the cherry blossom is in its full majesty. Starting in Seoul, the powerhouse capital of South Korea, the rally explores national parks, historic cities, incredible landscapes and of course by driving yourself you get the opportunity to meet the people and understand their country and culture better.

South Korea, probably better known for K-Pop and Gangnam style, is virtually unknown as a tourist destination but nevertheless one of the more fascinating places you can visit. We have four nights in Seoul to give you the chance to revel in the richness of the culture and have time to visit the must see locations such as the DMZ (Demilitarized Zone), the Gyeongbokgung Palace, Bukchon Hanok Village and even Lotte World.

To reach Japan we take the overnight ferry from Busan to Fukuoka before driving to Nagasaki. The blossom really starts to 'blossom' from now on and while we visit volcanoes, hot springs, stunning mountains, villages preserved in aspic, mountains, valleys and extraordinary culture we are in the middle of the most beautiful time of the year.

This is a luxury tour with an absolute limit of 20 cars. Having a small number means we are able to take advantage of iconic and beautiful hotels. On this journey we will include events such as tea ceremony, Sumo, Samurai, Geisha and other cultural icons that are only available in Korea and Japan.

SEOUL ON ARRIVAL

Incheon International Airport, has one of the fastest immigration and baggage claims you'll ever see. If you're lucky (and flying first or business class), you can get out of the airplane and on a bus heading to the city in less than 10 minutes.

Seoul can largely be divided into two parts- the older and more historic Gangbuk ("River North") and the newer and more affluent Gangnam ("River South"). The Han River divides the two right down the middle. You'll find most tourist sites (like Gyeongbokgung, Insadong, Myeongdong, Dongdaemun, Seoul N Tower, and Itaewon) in Gangbuk.

Gyeongbokgung Palace: This palace is one of the most iconic landmarks in Seoul. It was built in 1395 and served as the main palace of the Joseon Dynasty. The palace is surrounded by beautiful gardens and features traditional Korean architecture.

Hongdae Street: This street is known for its vibrant nightlife, street performances, and shopping. It's a great place to visit if you want to experience the local culture.

Namsan Seoul Tower 3 This tower is located on top of Namsan Mountain and offers stunning views of the city. You can take a cable car to the top or hike up the mountain.

Bukchon Hanok Village: This village is located in the heart of Seoul and features traditional Korean houses called hanoks. It's a great place to learn about Korean culture and history.

Ewha Shopping Street 3: This street is located near Ewha Womans University and features a variety of shops, cafes, and restaurants. It's a great place to shop for souvenirs or grab a bite to eat.

Lotte World Seoul: This is a popular amusement park in Seoul that features a variety of rides, attractions, and shows. It also has an indoor theme park, an outdoor amusement park, and a shopping mall.

The DMZ (Demilitarized Zone): The DMZ is a buffer zone between North and South Korea. One of the most popular tours is the Imjingak DMZ tour. This tour takes visitors to the Imjingak DMZ area, where they can see Imjingak Park, the Freedom Bridge, the Third Infiltration Tunnel, Dora Observatory, and the DMZ Exhibition Hall.
